

# FCC-125 Fiber Connector Cleaner 1.25mm - Data Sheet

This quick click ferrule end face cleaner is designed to provide exceptional cleaning performance by cleaning LC connectors beyond the critical fiber core area and cleaning deep into the contact area of a bulkhead adapter or connectors on fiber optic cables. The tethered dust cap provides protection for the micro fiber cleaning fabric and is an adapter for connector end face cleaning.

The FCC-125 features a patented 360 degree Rotational Tip for extra wide cleaning, easy one push operation and extendable nozzle, providing an additional 1.5 inches for a nozzle length of 4 inches to aid in accessing deep ports or crowded access panels. Additionally the FCC-125 uses a non-woven micro fiber that is lint free. The FCC-125 provides 800+ cleanings and the outer body is made from static dissipative material for safe ESD work.

### PATENTED CLEANING TECHNOLOGY

1. Slide-Guide™ non-slip micro tape feeder guarantees high reliability
2. Dual Rotational tip provides quick, repeatable and superior ferrule end face cleaning
